### 11. Prompt:

*"A patient is confused about the billing amount. Write a polite and clear message explaining the charges and offering to walk them through it over a call."*

---

## Telehealth Follow-Up Message

### 12. Prompt:

*"Write a message to a patient following a virtual consultation, summarizing what was discussed and any next steps or prescriptions."*

---

## Tips to improve Results from ChatGPT

Using ChatGPT effectively isn't just about what you ask — it's *how* you ask. Here are six simple tips to help you get smarter, more tailored responses that actually move your business forward:

---

### 1. 🎯 Be Clear and Specific

Avoid vague prompts like *"Give me some marketing ideas."*

Instead, include details about your business, audience, and objective.

✅ Try: *"Write 3 social media post ideas for my bakery targeting office-goers looking for weekend treats."*

---

### 2. 🧩 Share Context

The more background you provide, the better ChatGPT can personalize its output.

Mention your business goals, tone of voice, product focus, or audience pain points.

---

### 3. 📝 Use Examples

If you're unsure how to phrase your request, give a sample or pattern to follow.

✓ Try: "Suggest a subject line similar to 'This cookie might be your new weekend obsession.'"

---

#### 4. Follow Up and Refine

Don't settle for the first draft. ChatGPT improves with feedback.

Ask follow-up questions, add new info, or tweak your prompt to get closer to what you want.

---

#### 5. Break It Down

Big tasks (like "Build me a marketing plan") can overwhelm any tool.

Break them into steps:

Strategy → Content Ideas → Messaging → Campaign Plan

---

#### 6. Experiment with Phrasing

Reword your prompt using different angles or keywords.

Even a small change in how you ask can lead to completely new insights.
